Vision

The Hobart City Deal will **leverage Hobart's natural amenity and build on its position as a vibrant, liveable and connected global city.**

It is a 10 year partnership that will provide the framework to guide and encourage further investment in the city by embracing opportunities for growth and addressing key strategic and infrastructure challenges.

This City Deal will improve accessibility in Greater Hobart, embracing the idea of a 30 minute city.

It will:

- deliver an integrated land-use and transport vision for Greater Hobart
- prioritise housing and facilitate urban renewal along key transit corridors
- deliver a package of planning initiatives to support development to provide residents with a greater range of housing choices
- build stronger partnerships and improve coordinated planning between the three levels of government.

Hobart will be a smart city built on innovation, education, science and our role as an Antarctic and international gateway, where economic development is spread throughout the region emphasising its strategic strengths.

A successful Greater Hobart is one where residents can live, work, study and access services and cultural experiences locally.

It will be a city where businesses and tourists can be globally connected through sustainable and efficient public transport, port, aviation, road and digital infrastructure.
